ANTENNA MOUNTING ACCESSORIES

Updated 21 April 2011

Mast Mounting Clamps Right-Angle Heavy Duty

ZCG Scalar manufacture a complete range of antenna mounting clamps to suit booms and masts of various diameters. All clamps we offer have undergone extensive field tests to ensure the highest quality, strength, long term durability and ease of installation.

This page lists our selection of right-angle heavy duty clamps for mounting large Yagi and Sidemount Dipole antennas.

Y2300

Galvanised steel components

Antenna Boom Diameters : 32 mm up to 50 mm Round

Mast Diameters : 30 mm up to 50 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 1.8 kg

UAM90L

Galvanised steel components

Antenna Boom Diameters : 40 mm up to 75 mm Round

Mast Diameters : 40 mm up to 75 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 1.7 kg

Y2300SS

All stainless steel components

Antenna Boom Diameters : 32 mm up to 50 mm Round

Mast Diameters : 30 mm up to 50 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 1.7 kg

UAM90UNI

Galvanised steel components

Antenna Boom Diameters : 40 mm up to 70 mm Round

Mast Diameters : 40 mm up to 90 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 1.9 kg

Y2300L

Galvanised steel components

Antenna Boom Diameters : 32 mm up to 50 mm Round

Mast Diameters : 40 mm up to 70 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 2.6 kg

UAM90LL

Galvanised steel components

Antenna Boom Diameters : 60 mm to 115 mm Round

Mast Diameters : 60 mm to 115 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 2.2 kg

Y2300SS-XL

All stainless steel components

Antenna Boom Diameters : 32 mm up to 52 mm Round

Mast Diameters : 70 mm up to 90 mm Round

Mounting Orientation : Right-Angle 90°

Service : Heavy Duty

Clamp Weight : 2.0 kg
